Ongoing

### Location

Guarujá, SP, Brazil

## PRESS RELEASE

Step into Casa Pitombas, a seaside retreat where the timeless beauty of natural wood meets the elegance of clean lines and glass panels, inviting the ocean breeze and sunlight to embrace every corner. Nestled between serene hills and the captivating beach, Casa Pitombas' interiors are a harmonious blend of natural elements. From the cool touch of marble underfoot to the warmth of wood overhead, every detail has been meticulously crafted.

Expansive glass panels dissolve boundaries, inviting the outdoors in. Lighting, resembling fireflies at night, highlights the home's exquisite design. Here, nature and architecture coexist in perfect harmony. Every element of Casa Pitombas celebrates the surrounding beauty, reinforcing our connection to the natural world.

The furniture echoes this connection with natural materials like linen, wood, stone, and raw finishes, preserving the home's bond with nature. Clean lines, expansive windows, and a beachfront pool complete this tranquil setting, offering a sanctuary where design and nature are seamlessly intertwined.
