PRESS RELEASE

DSG Itaim by Tegra is designed for those who refuse to compromise. Work and leisure, modernity and sophistication, practicality and tranquility — all coexist seamlessly in this development.

A project where nature and urban life come together harmoniously, DSG Itaim combines the comfort of residential apartments with the convenience of fully equipped commercial spaces. The development offers a lounge, fitness center, party room, game room, meeting room, solarium, and more. These spaces express modernity through clean lines and bold forms, creating a unique presence in the urban landscape.

The balance between modern elements and the preservation of a timeless aesthetic is evident in every detail, reflecting an unwavering commitment to sophistication. DSG Itaim redefines contemporary living with its perfect blend of functionality, elegance, and urban connectivity.
