Quintas da Praia

Project Start Date

2021

Project Completion Date

2023

Location

Cabo de Santo Agostinho, PE, Brazil

Area

Common Areas – 2,080 m²

PRESS RELEASE

A paradise at your doorstep, Quintas da Praia offers the perfect blend of nature and comfort, seamlessly integrated into the entire project. It is a space designed to stimulate the senses.

Every detail evokes a sensation: beach, sea, greenery, textures, colors, urbanism, landscaping — all harmoniously brought together in the first planned neighborhood of the Recife metropolitan area.

“The architecture of Quintas was designed to preserve the local atmosphere: coconut trees, beach, breeze, sea, and coral reefs. By employing simple volumetry and natural materials, we achieved the envisioned result: a vibrant, natural, and dynamic project that will provide residents with unforgettable and joyful moments of life,” explains Fernanda Marques.
